Objective:

A dedicated and fast-learning DevOps enthusiast who recently completed a Bachelor's in Computer Applications. Currently learning DevOps practices, which include CI/CD pipelines, containerization using Docker, orchestration using Kubernetes, and infrastructure as code, including Terraform/Ansible. My focus will be to be skilled in using AWS and Azure as cloud platforms for building scalable, efficient, and robust systems.

Technical Skills:

- **Programing Language** : Python
- **Operating Systems:** Linux, Windows
- **Version Control:** Git, GitHub
- **Containerization:** Docker
- **Container Orchestration:** Kubernetes
- **CI/CD Tools:** Jenkins
- **IAC :** Terraform
- **Scripting:** Bash/Shell scripting
- **Cloud Knowledge:** AWS

Certifications:

- DevOps - Zero To Hero (Junoon Batch 8) (Certification ID : NDNRGBUM)

Education:

Qualification	Specialization	Board/University	Passing year
BCA	Bachelor of Computer Application	Silver Oak College of Computer Apllication / Silver Oak University	2022-2025
12th	Commerce	GSHEB	2022

Academic Projects & Coursework:

BDMS: Blood Donation Management System

- Developed a web-based application to manage and streamline blood donation activities using PHP, Java Script, MySQL .
- Developed a basic CI/CD pipeline using and Jenkins for a this web application.
- [More Projetcs](#)

Additional Highlights:

- **Quick Learner:** Constantly upskilling through online courses of DevOps and cloud technologies.
- **Problem Solving:** Strong analytical skills to troubleshoot and optimize processes.
